SAROS DES)GN

SAROS DES)GN

In modern architecture and interior design it's widely used the stained-glass as a key feature. The different glass textures and colours create an amazing effect on both traditional and contemporary designs.

Individuality leads to the customization of spaces, that's why using different lightings colours helps create multiple effects that can go from a warm and deep sense, to a bright and clear sensation of the room.

In this 5th catalogue with a list of the various increasingly popular printed ceilings, you can find more than what you expect.

We create Stained Glass Window effect using our unique printing method and engineering for your walls, ceilings or panels. Depicted some possibilities, from traditional to contemporary, which can be chosen based on customer's sense and style.
